Objective:

Highly skilled and experienced senior product developer with over 10 years of experience in the technology industry. Proven track record of developing high-quality, scalable, and innovative products, managing development teams, and driving product success. Seeking to leverage my technical and leadership skills to excel in a new Senior Product Developer role at StIT.

Skills:

1. Expertise in various programming languages, such as Java, Python, and JavaScript.
2. Strong problem-solving, debugging, and analytical skills.
3. Proficient in product development tools (Git, Jenkins, Docker) and Microsoft Office Suite.
4. In-depth knowledge of Agile methodologies, DevOps, and software development best practices.
5. Experience in product architecture, design, and development.
6. Excellent interpersonal, communication, and leadership skills in French and English.

Education:

Master of Science (MSc) in Computer Science
École Polytechnique, Paris, France
Graduated: June 2011

Work Experience:

Senior Product Developer
StIT, Paris, France
March 2017 - Present

1. Led the development of innovative technology products, ensuring high-quality, scalability, and performance.
2. Collaborated with product managers, designers, and other stakeholders to define product requirements and roadmaps.
3. Implemented product features and functionality, adhering to best practices and coding standards.
4. Managed and mentored development teams, fostering a culture of collaboration, learning, and innovation.
5. Conducted code reviews, automated testing, and continuous integration, ensuring product quality and reliability.

Product Developer
InnoTech Labs, Paris, France

June 2011 - February 2017

1. Developed technology products and solutions, from ideation and design to implementation and deployment.
2. Collaborated with cross-functional teams to define product requirements, prioritize features, and manage development sprints.
3. Implemented product features and functionality, adhering to best practices and coding standards.
4. Participated in code reviews, automated testing, and continuous integration, ensuring product quality and reliability.
5. Contributed to the improvement of development processes, tools, and methodologies, driving efficiency and productivity.

Certifications:

Certified Software Development Professional (CSDP)

IEEE Computer Society, Paris, France

March 2019

Achievements:

Top Product Developer, 2018 & 2021 - TechBuilders

Product Innovation Award, 2016 - InnoTech Labs
